Education

UFSCar   São Carlos, Brazil
Master of Computer Science   2020 – 2023

- Applications in Machine Learning.
- Development of an Enhanced Incremental Fuzzy Classifier.
- Novelty Detection in Multiclass Data Streams.

IFSULDEMINAS   Poços de Caldas, Brazil
Bachelor of Computer Engineering   2015 – 2019

Professional Experience

UFSCar   São Carlos, Brazil
Research Scientist   2022 – Present

- Research on Novelty Detection in Data Streams.
- Algorithm Development.
- Practical Applications in Computer Science.

TD2I   Remote, Latin America
BI and EPM Analyst   2019 – 2021

- Development of Support and Improvement Projects.
- Expertise in ETL Tools like Talend, ODI, and SSIS.
- Assistance in Improvement Processes.

Skills

</> Python · Java · Git
SQL · Excel · ETL Tools

🈁 Portuguese · Native
Spanish · Advanced
English · Intermediate

Awards

2023 **First Place**
EY Data Challenge
